Summary

Conclusion

Pada bulan November, revenue meningkat seiring kenaikan ad spend, namun efektivitas iklan menurun karena penurunan AOV dan alokasi tambahan budget yang belum optimal dalam mendorong konversi, sehingga ad cost ratio meningkat.

Revenue organik meningkat dan Shopee Ads tetap menjadi channel utama penjualan, dengan produk custom sebagai backbone dan produk cermin sebagai incremental growth driver. Kedepan, fokus strategi diarahkan pada realokasi budget berdasarkan performa channel dan produk, serta optimalisasi konversi dan AOV tanpa menaikkan total budget.

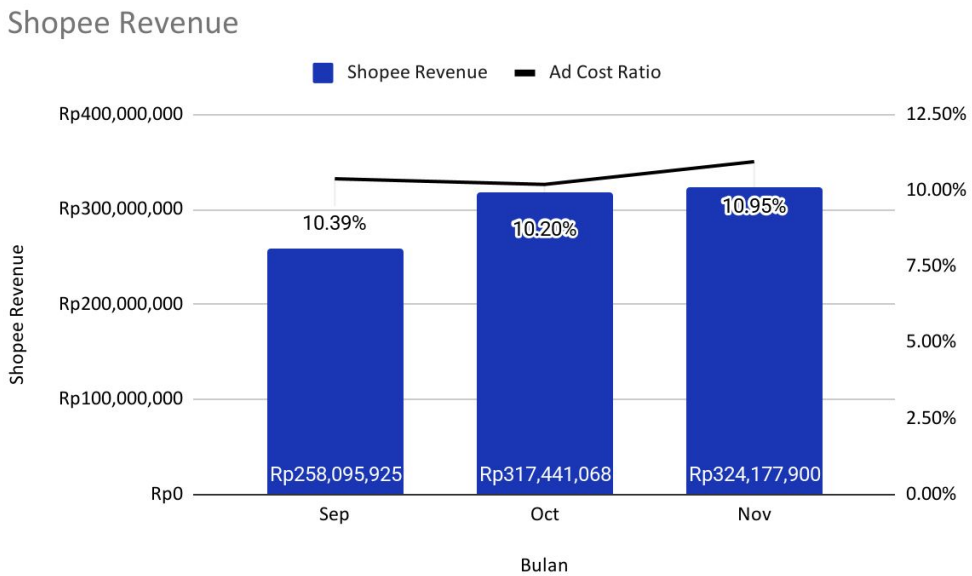

Action Plan & Recommendation

- Re-alokasi budget berdasarkan channel dan product matrix
- Optimasi lower funnel untuk memperbaiki tingkat konversi : foto katalog, video produk, layout toko
- Optimasi lower funnel untuk meningkatkan AOV : Promo buy more get more, mengurangi diskon untuk produk yang sudah high conversion
- Campaign new year untuk meningkatkan konversi seasonal menjelang tahun baru

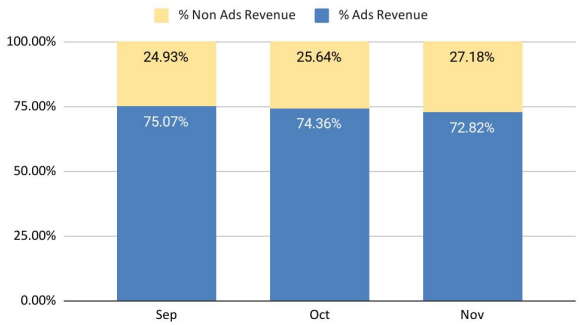

Executive Summary

Revenue meningkat seiring dengan peningkatan ad spend, namun efektivitas biaya iklan (Ad cost ratio) menurun.

Total Revenue	Total Ad Cost	Ad Cost Ratio
Rp324,177,900	Rp35,490,573	10.95%
↑2.12% vs Last Month	↑9.62% vs Last Month	↑0.75% vs Last Month

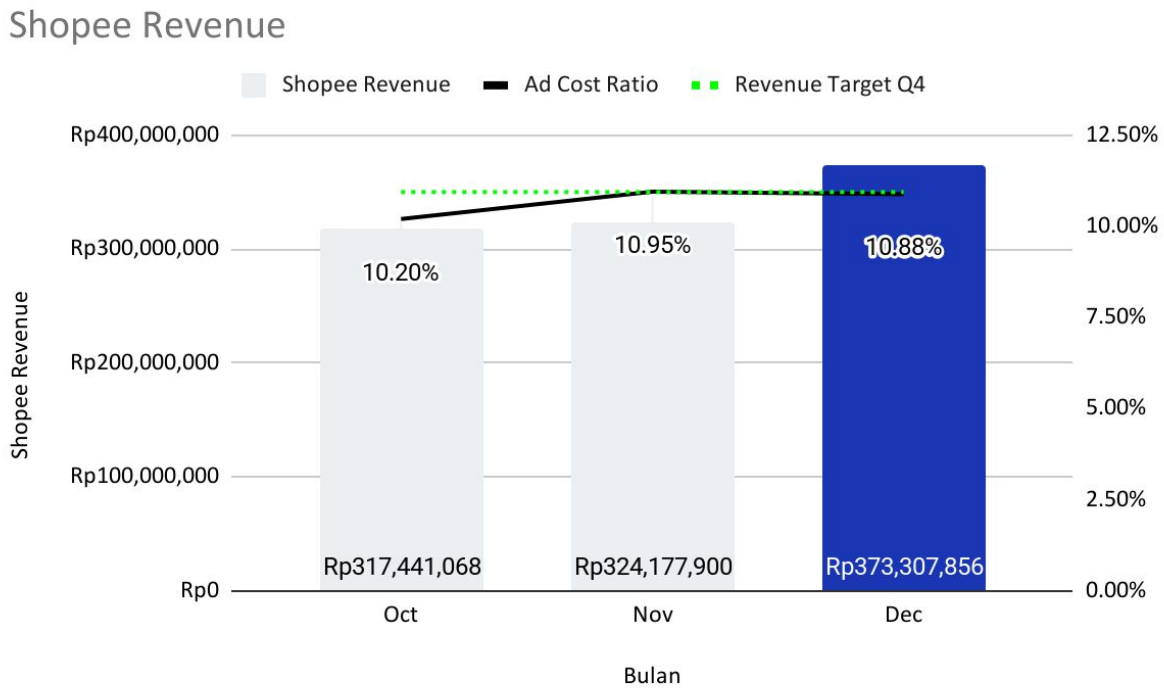

- Peningkatan revenue tidak sebanding dengan peningkatan ad spend sehingga ad cost ratio meningkat. Peningkatan ad spend hanya meningkatkan traffic, namun kurang efektif dalam mendorong konversi.
- Proporsi revenue organik meningkat dibanding bulan sebelumnya, menandakan sinyal yang baik sebagai penyeimbang performa ads.

- Turunnya traffic dari meta reguler sejalan dengan penurunan budget yang dialihkan untuk meta CPAS, selain itu cost per result untuk produk custom mulai membengkak.

Saran pembaruan layout toko untuk meningkatkan tingkat konversi

- Naikkan kategori poster terlaris (Kuadran 1) ke posisi atas. Disusul poster paket bundling lainnya

- Penambahan spending sebesar Rp900rb di bulan november dialokasikan untuk menambah audience baru dengan campaign add to cart, sehingga conversion rate menurun, terlepas dari itu, jumlah add to cart dan jangkauan meningkat.
- Penjualan dan ROAS mulai meningkat di bulan desember dikarenakan alokasi spending sudah kembali difokuskan untuk konversi sehingga terjadi peningkatan conversion rate yang signifikan.

Discussion

Discussion Insight

- Untuk produk custom strateginya diarahkan supaya percaya ke bingkai nya dulu, sehingga mau cetak gambarnya di haydecor
- Coba explore messages di landing page dibuat lebih storytelling bahasa Indonesia
- Order custom yang masuk ke WA kurang efektif.
- Bentar lagi bakal ada pertandingan F1, jadi sedang coba develop produk F1 baru
- Development produk calendar non poster tidak jadi karena takut jadi beda kategori

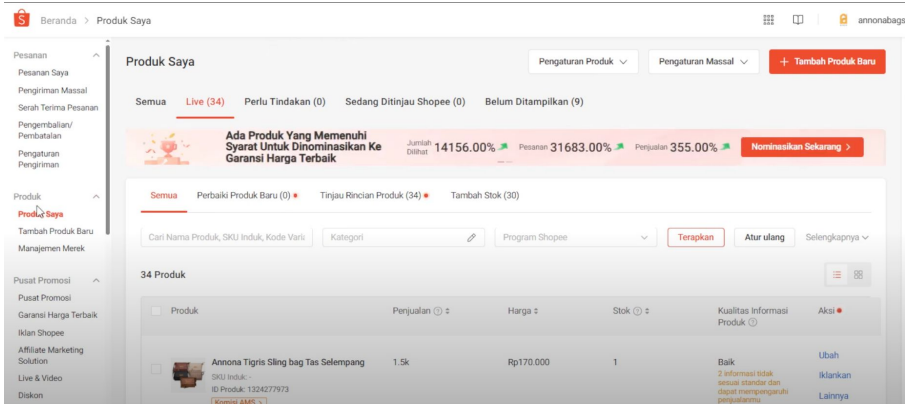

Haydecor Action Plan

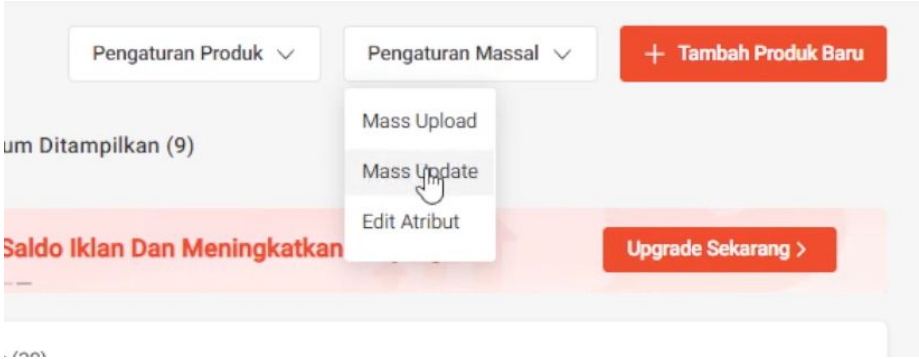

- Coba validasi ulang USP dari bingkai haydecor, bisa dari feedback ataupun review customer
- Create content yang lebih hardselling ke USP produk custom
- Update katalog dan konten produk F1

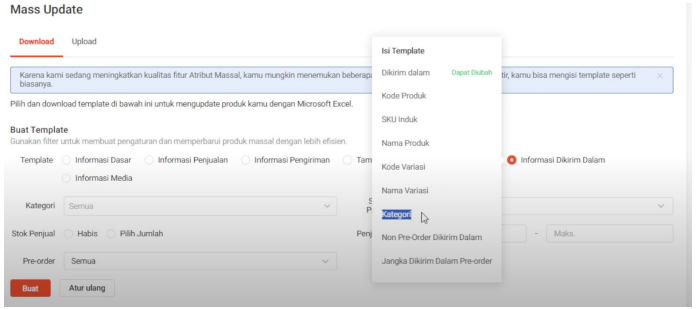

Arik Action Plan

- Request brief detail content custom
- Create landing page storytelling untuk produk custom
