Summary

Conclusion

Peningkatan investasi ad spending pada bulan Oktober terbukti efektif, ditunjukkan oleh kenaikan total revenue Shopee yang lebih tinggi dibanding kenaikan spending ads overall. Revenue dari channel ads memberikan kontribusi incremental revenue yang lebih tinggi dibanding non-ads secara value, sementara revenue non-ads juga meningkat sebesar 26%, sehingga rasio ad cost menjadi lebih efisien dibanding bulan sebelumnya.

Dari sisi produk, pertumbuhan ini tidak hanya didorong oleh winning product seperti custom poster dan set bundling poster estetik, tetapi juga oleh produk baru—cermin estetik—yang menunjukkan performa kuat dan kontribusi besar terhadap peningkatan penjualan bulan ini. Hal ini menandakan adanya peluang baru yang perlu dimaksimalkan di bulan berikutnya sebelum kompetisi semakin ketat.

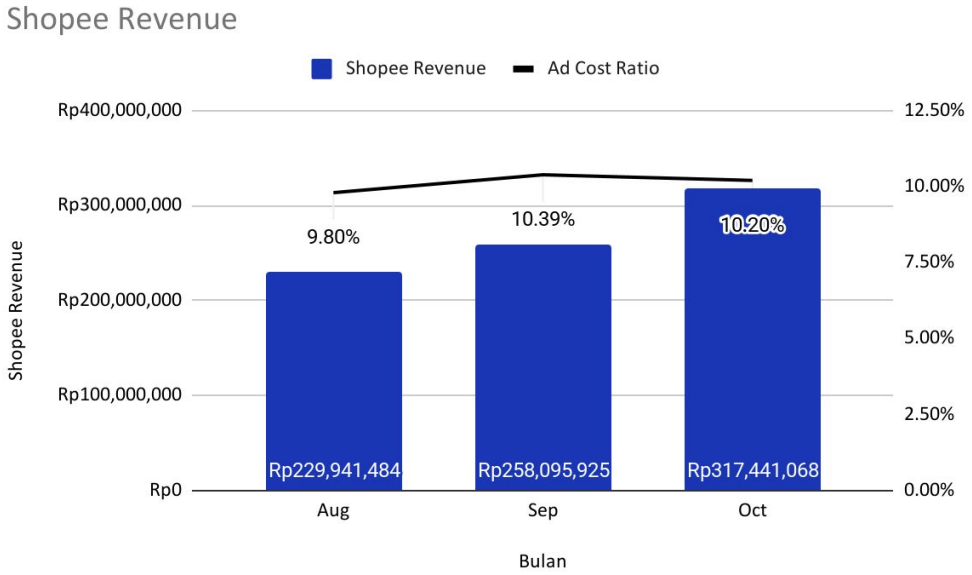

Action Plan & Recommendation

- Scale overall ads budget dengan tetap menjaga efisiensi kinerja setiap channel.
- Distribusikan budget untuk scaling produktif baru, yaitu cermin estetik, guna mempertahankan momentum di tengah kompetisi yang meningkat. Kembangkan angle selling cermin menjadi cermin custom
- Maintain dan optimalkan winning product custom poster dengan melakukan penyegaran konten secara berkala untuk menjaga performa dan engagement.
- Mulai persiapkan year-end sale untuk boost penjualan di akhir tahun. Gunakan gimmick seperti “tahun baru suasana baru” atau “Gift tahun baru”

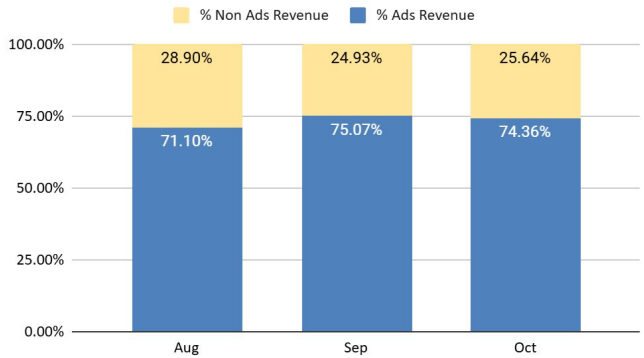

Executive Summary

Total revenue meningkat lebih tinggi dibanding total ad spend, sehingga ad cost ratio lebih efisien dibanding bulan sebelumnya.

Discussion Insight

- Banyak customer yang order custom itu mengambil design dari toko lain
- Bagi customer, keamanan pengiriman lebih utama dibanding gambarnya, sehingga review toko terkait pengiriman sangat berpengaruh
- Rating toko sedikit turun karena complain terkait delivery cermin, development cermin custom tertunda karena masih proses perbaikan teknik packing.

Haydecor Action Plan

- Akan launching produk baru (Explorasi design AI) yang lebih original haydecor
